Akira Horiguchi

Citizenship: USA

Employment

Postdoctoral Associate *Department of Statistical Science, Duke University* **2021-Present**
Advised by Dr. Li Ma and Dr. Cliburn Chan.

Co-Instructor, Data Science *J.P. Morgan Chase & The Ohio State University* 2019

Graduate Research Assistant *Nationwide Insurance & The Ohio State University* 2018-2019

Graduate Teaching Assistant *Department of Statistics, The Ohio State University* 2017-2018

Data Visualization Intern *NORC at the University of Chicago* 2016

Education

Ph.D., Statistics, The Ohio State University Dec 2020
Thesis: "Bayesian Additive Regression Trees: Sensitivity Analysis and Multiobjective Optimization." (html) Advised by Dr. Matthew T. Pratola and Dr. Thomas J. Santner.

M.S., Statistics, The Ohio State University May 2017

B.S., Mathematics, University of Maryland May 2015
Thesis: "Improving Photovoltaics with High Luminescence Efficiency Quantum Dot Layers." (html) Departmental Honors & Gemstone Honors College Citation.

Awards & Honors

Travel Award for ISBA 2022 World Meeting *Scientific Committee of ISBA 2022 WM* 2022

Student Travel Award for Joint Statistical Meetings *Quality and Productivity Section, American Statistical Association* 2019

Travel Award for Industrial Math/Stat Modeling Workshop *The Statistical and Applied Mathematical Sciences Institute (SAMSI)* 2019

Dean's Distinguished University Fellowship (covers first, second, and final year) 2015
Graduate School, The Ohio State University

Undergraduate Researcher of the Year *Maryland Center for Undergraduate Research, University of Maryland* 2014

Publications

Preprints

"Posterior contraction rates for Bayesian estimators of Sobol´ indices and Shapley effects." 2022-
A. Horiguchi and M. T. Pratola. Submitted.

"Tree stick-breaking priors for covariate-dependent mixture models." 2022-
A. Horiguchi, C. Chan, and L. Ma. Submitted. (arXiv)

Peer-reviewed journal articles

"Using BART to Perform Pareto Optimization and Quantify its Uncertainties."   2022
A. Horiguchi, T. J. Santner, Y. Sun, and M. T. Pratola. Technometrics, Special Issue on Industry 4.0. (html)

"Assessing variable activity for Bayesian regression trees."   2021
A. Horiguchi, M. T. Pratola, and T. J. Santner. Reliability Engineering & Safety System, Special Issue on Sensitivity Analysis of Model Outputs. (html)

Technical reports

"Hurricane Strikes Again! Forecasting Power Outages for Tropical Cyclones."   2019
D. Arokiasamy, L. Damiano, M. Dao, S. Gailliot, **A. Horiguchi***, R. Kesawan, Y. Xu, K. Kaufeld, M. F. Dorn, B. Reich, Y. Guan.* 2019 SAMSI Industrial Mathematical & Statistical Modeling Workshop. (pdf)

Open source projects

Covariate-dependent tree stick-breaking.   2022-

Contributed to the Open Bayesian Trees (OpenBT) project.   2020-

PRESENTATIONS

Invited talk

"Using BART to Perform Pareto Optimization and Quantify its Uncertainties."   2022
Fall Technical Conference. Park City, UT.

"Using BART to Perform Pareto Optimization and Quantify its Uncertainties."   2022
2022 World Meeting of the International Society for Bayesian Analysis. Montréal, Canada.

Talk

"Tree stick-breaking priors for covariate-dependent mixture models."   2022
BNP13 – 13th Conference on Bayesian Nonparametrics. Puerto Varas, Chile.

"A flexible regression model for flow cytometry data."   2021
Duke Center for Human Systems Immunology (CHSI) Virtual Symposium. Durham, NC.

"Using BART for Multiobjective Optimization of Multiple Noisy Objectives."   2021
Quality and Productivity Research Conference. Tallahassee, FL.

"Assessing variable activity for Bayesian regression trees." *2021 World Meeting*   2021
of the International Society for Bayesian Analysis. Moved online due to COVID-19.

"Assessing variable activity for Bayesian regression trees." *13th International*   2020
Conference of the ERCIM WG on Computational and Methodological Statistics. Moved online due to COVID-19.

"Assessing variable activity for Bayesian regression trees."   2020
Joint Statistical Meetings. Moved online due to COVID-19.

"Assessing variable activity for Bayesian regression trees." *Spring Research*   2020
Conference, Oakland University. Rochester, MI. Cancelled due to COVID-19.

"Increasing Solar Cell Efficiency with a Spin-Coated Layer of Quantum Dots in PLMA."   2015
Team Thesis Conference, University of Maryland. College Park, MD.

"Transcription Factors and Cascade Network." *Summer Undergraduate Research*   2014
Symposium, The Ohio State University. Columbus, OH.

"Transcription Factors and Cascade Network." *Summer Undergraduate Research*   2014

Symposium, Virginia Polytechnic Institute and State University. Blacksburg, VA.

"No-Analog Communities in Space and Time." *NIMBioS Undergraduate* 2013
Conference, University of Tennessee. Knoxville, TN.

Poster

"Tree stick-breaking priors for covariate-dependent mixture models." 2022
2022 World Meeting of the International Society for Bayesian Analysis. Montréal, Canada.

"Comparing Variance-Based and Count Methods for Assessing Variable Activity in 2019
Bayesian Additive Regression Trees." *Joint Statistical Meetings. Denver, CO.*

"Increasing Solar Cell Efficiency with a Spin-Coated Layer of Quantum Dots in PLMA." 2014
Undergraduate Research Day, University of Maryland. College Park, MD.

APPLIED RESEARCH EXPERIENCE

SAMSI Industrial Math/Stat Modeling Workshop for Graduate Students *North Carolina* 2019
State University. Raleigh, NC

NSF Research Experiences for Undergraduates *Biocomplexity Institute of Virginia Tech.* 2014
Blacksburg, VA.

Bill Fagan Lab, Undergraduate research assistant *University of Maryland.* 2013-2014
College Park, MD.

Munday Lab, Gemstone Honors Program *University of Maryland. College Park, MD.* 2012-2015

TEACHING

Reference: (SP)=Spring   (AU)=Autumn   e.g. (SP19)=Spring 2019

The Ohio State University

BUSMGT 7256: Tools for Data Analysis   Co-instructor (SP19)

This course is designed to introduce students to commonly used software programs in data science and improve students' problem solving skills and logical thought processes. Students will be exposed to R, SAS, and SPSS.

STAT 5760: Statistical Consulting Support from the SCS   Teaching assistant (SP18)

Graduate or undergraduate students enrolled in this course will work with a graduate student consultant employed by the Statistical Consulting Service (SCS) for the purpose of making progress on their thesis or dissertation.

STAT 6301: Probability for Statistical Inference   Grader (AU17)

Introduction to probability, random variables, and distribution theory; intended primarily for students in Master of Applied Statistics (MAS) degree program.

STAT 5302: Intermediate Data Analysis II   Grader (AU17)

The second course in a two-semester sequence in data analysis covering simple linear regression (inference, model diagnostics), multiple regression models, variable selection, model selection, two-way ANOVA, mixed effects model.
